Enterprise Integration & Information Landscape

Boomi Services

Boomi AtomSphere Integration

iPaaS platform for on-premise, SaaS and PaaS application integration

Value-Add: Aspire is an AtomSphere/ Molecules expert that uses its best-of-breed framework AURAS, sitting atop Boomi's iPaaS for accelerated time to value

Boomi API Management

API strategy and governance for smooth digital service consumption

Value-Add: Aspire draws on its extensive API experience to manage APIs through the entire lifecycle in a unified environment built around AURAS best practices

MDM Realization

Streamlining data sharing and establishing data assets through MDM

Value-Add: Aspire helps build a foundational enterprise-wide data asset repository and then constructs an MDM repository for augmented data consistency and time to insight

Flow Automation

Improve your organizational collaboration through Boomi Flow, a simple & low code workflow platform

Value-Add: Aspire has built a set of pre-defined enterprise components for accelerating Boomi flow implementations.

Boomi Managed Service Practice

Dedicated practice for providing Boomi Application Support Services for global Users:

Boomi Support Model

- ✓ Managed services
- ✓ 24X7 Support
- ✓ Fixed hour

EDI Support Services

- ✓ Faster Partner Onboarding
- ✓ Automated and Manual EDI Data Processing
- ✓ Transaction Specific Customer Support

Solution Focus

Omnichannel Integration

Knit the narrative of business agility into a truly unified integration platform spanning devices, channels, applications and systems

iPaaS Migration

Script your journey to the cloud with a re-architecture that constructs application relationships and deconstructs dependencies

Digital Enablement

Strategize digital elements and personalize customer interactions with custom digital experience accelerators

Salesforce Integration

Consolidate your applications into Salesforce for a consistent customer experience navigating through the channel landscape

ServiceNow Integration

Unlock the power of IT service management through ServiceNow integrations to gain efficiencies and cost reductions

Legacy Modernization

Break away from the legacy with new operating models that transition your IT to the world of digital disruptions

AURAS – Solution Accelerator for Boomi

AURAS drives connected business transformations with a pre-built, ready-to-go Boomi framework to accelerate next-gen Boomi integration implementations.

Value Proposition

Unified Architecture: AURAS unifies best-of-breed technologies from SOA, MoM, API, IOT, EDI and MDM to build a scalable and secure platform to handle complex enterprise integration challenges

Pre-Built Framework: AURAS reduces implementation efforts and costs by up to 50% as it comes with pre-built components and services for Enterprise Application Integration and Omnichannel Integration

Reusable Services: The platform is built on top of Boomi platform integrated with best practices. A layer-based services for Exception handling, Auditing, Notification approach enhances common service re-usability, thereby ensuring reduced TCO and greater ROI realization

About Aspire

Aspire Systems' services include Product Engineering, Enterprise Solutions, Independent Testing Services, Oracle Application Services, Digital Services and IT infrastructure & Application Support Services. The company currently has over 2,400+ employees and 150+ customers globally. The company is headquartered in Singapore and has a growing presence in the US, UK, Middle East and Europe. For the ninth time in a row, Aspire has been selected as one of India's "Best Companies to Work For" by the Great Place to Work® Institute, in partnership with The Economic Times.
