# A trusted WSO2 Partnership for a Unified Integration Architecture Practice

Aspire systems, in partnership with WSO2, is helping CXOs of Fortune 500 companies in driving their digital technology and architecture initiatives. We offer comprehensive Integration and Information Management offerings that are designed to address Consulting, Implementation, Support or any other IT needs of enterprises irrespective of their size.

## WSO2 Specialization Services

### Integration

From strategy to realization, we take care of implementation of enterprise applications, business processes, devices and third party systems through protocols using WSO2 ESB, BPM, BRM, Connectors and BAM.

### API Management

We help to enable and manage application interfaces through WSO2 API Manager, ESB, Identity Server and Governance Registry.

### Analytics

We support Enterprise Data Management, Design Data Processing and Analytics, Enterprise Class Data Analytics platform using WSO2 DAS, CEP, BAM, DSS and UES.

### IoT

We are committed to drive IoT's advantages to provide strategy for architecture approaches, establish device integrations, capture events and process data for predictions using WSO2 DAS, EMM, ML, and Store Manager etc.

### Security

We facilitate enterprises to adopt Open Standard Security and Identity Management as Service by implementing SSO, OAuth and RBAC standards using WSO identity server.

### Mobile

We help enterprises to prepare and manage device access and version controls by enabling WSO2 EMM based device, app and store management protocols that checks compliance with Government regulations.

### APP Management

To help enterprises plan their IT resources better, we help them measure, prepare, share, store, control and enforce Application controls, management protocols etc.

### Cloud

We ensure that enterprises leverage their WSO2 private and public cloud capabilities by establishing single repository for code management, issue tracking, team coordination and access control through the WSO2 App Factory.

# SUCCESS STORIES

Aspire enabled a leading chemical distributor to streamline their Enterprise Integration strategy with our **SOA architecture approach**. This engagement drove the customer to achieve 100% ROI faster by ensuring **real-time data availability** across LOB, partners and parent organizations.

Aspire helped a leading global branding enterprise to streamline their Enterprise Integration practices by **integrating over 250 systems** that streamed data at real-time across regional systems and customers. Our Unified Architecture approach achieved higher reusability, mature processes and **200% improved ROI**.

Aspire provided a seamless integration solution to a leading multi-channel retail chain to deliver an **improved customer experience** across all their channels. The integration platform has provided a single solution for data migration & process adherence.

## The Aspire Advantage

Aspire, in association with WSO2, offers a Unified, Data-Driven Architecture Integration solution by combining the best-of-breed technologies.

Our integration efforts are implemented through Prebuilt Frameworks that are built upon our SOA with 100% reusable components.

Aspire's integration models are based on NRF ARTS Schema that enables our framework to plug-and-play into any retail solution.

Aspire's approach promotes Multi-channel Integration through its IoT readiness, On-Premise Version and Private PaaS capabilities.

Our integration solution accelerates implementation cycle by 70% and has a proven record of boosting ROI by 200%.

## ABOUT ASPIRE
