

Delivering integrated multichannel experience for financial service provider

ATTENTION. ALWAYS.

aspire
SYSTEMS 
attention. always.

ABOUT THE CUSTOMER

A leading financial services provider of loans and related loan solutions for small businesses with SSN wanted to interface with multiple external systems. They wanted to simplify their loan approval process by interfacing multiple external systems to validate identity, measure repayment capability, verify documents, receive and validate bank statements.

CHALLENGES

The customer was struggling to:

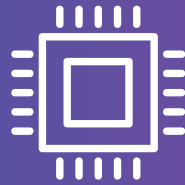

- Enhance security of internal and external systems
- Integrate their in-house system with external systems to speed up approval processes and data analytics
- Integrate Amazon S3 repository for data warehousing process
- Provide secure APIs for external partners

SOLUTION

After careful analysis of the clients systems and processes, Aspire systems implemented a solution that helped the client to:

- Integrate the internal system and various external systems with a secured way of data transmission using HTTPs and Data encryption
- Secure API services provided, for the consumption of external partners
- Easy connect to merchant bank accounts for details on account summary owing to integrated capabilities which accelerated loan approval processes
- Secure and encrypted communication with the Amazon S3 repository achieved by integration
- WSO2 middleware platform used to implement the interface maintaining the audit trail and related statuses of transactions resulting in smooth customer operations

TECHNOLOGY SNAPSHOT

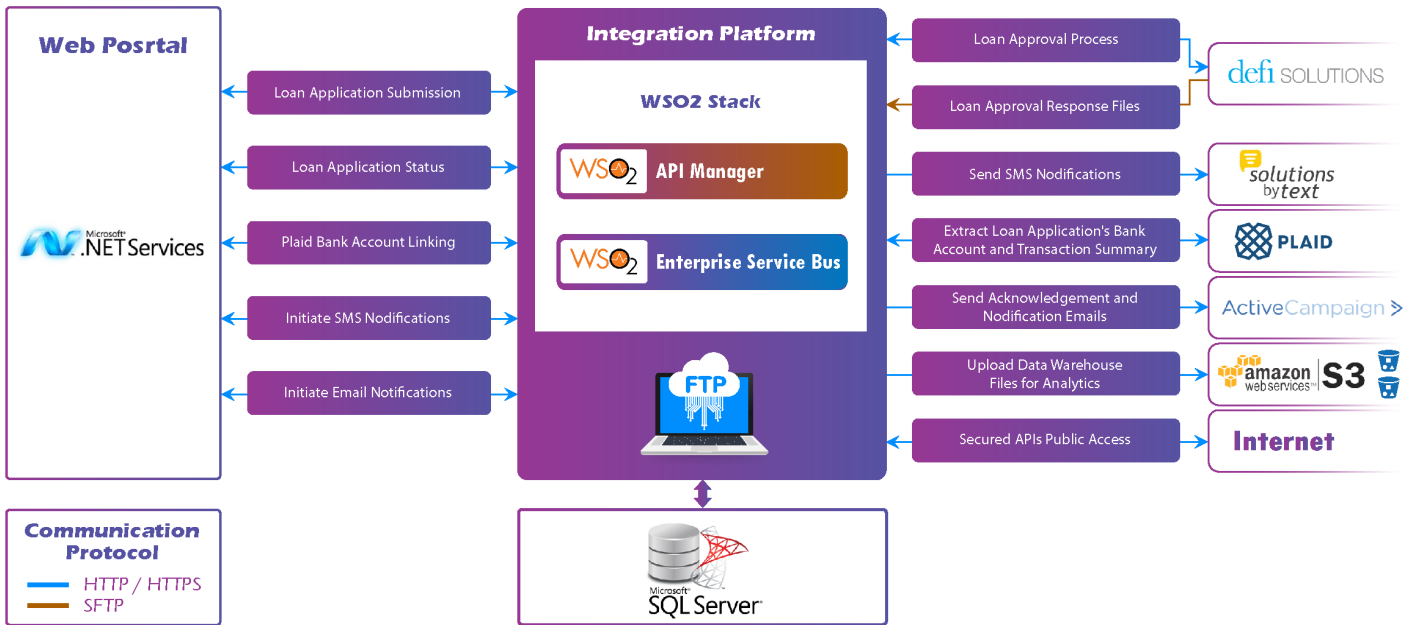

- WSO2 ESB Server
- WSO2 API Manager

SOLUTION ARCHITECTURAL DIAGRAM

JetCapital Integration Architecture

RESULTS AND ROI

- Quicker loan application processing and approval
- 200% increase in loan applications with API services
