

Qualifications Wales Website

Challenges

- Design and develop a professional, contemporary website for a brand new organisation
- Understand the types of users who would visit the website and what information they would require
- Bring together content from multiple sources to produce a coherent and engaging website

About the Customer

Aspire systems developed a bespoke website for the newly created organisation, Qualifications Wales. Qualifications Wales is a Welsh Government Sponsored Body established through the Qualifications Wales Act 2015. They regulate non-degree qualifications and the qualifications system in Wales

The Solution

- » Consultations and workshops with Qualifications Wales staff over a number of weeks helped us determine who would be visiting the website and why
 - » User journey mapping was completed and from this we were able to create the information architecture and site map
 - » Once the information architecture was defined we were able to produce page wireframes and carry out graphic design to define the look and feel of the site
 - » Development was carried out using the Agile SCRUM methodology
 - » Develop a bespoke website built on the Umbraco content management system
-

The Services We Provided

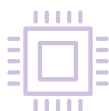

- » **Application Development**
- » **Web Design**
- » **User Experience**

Outcomes and Benefits

- » Umbraco content management system allows the content editors at Qualifications Wales to manage content with ease
- » Qualifications Wales can tag content with metadata, allowing website users to search for categories of documents using the bespoke search engine
- » Website design takes into account the various users of the site with separate sections for learners and regulators
- » Bilingual functionality throughout

Technology Snapshot

» **Umbraco**» **AZURE**» **.NET**

Aspire Systems is a global technology services firm serving as a trusted technology partner for our customers. We work with some of the world's most innovative enterprises and independent software vendors, helping them leverage technology and outsourcing in our specific areas of expertise. Our core philosophy of "Attention. Always." communicates our belief in lavishing care and attention on our customer and employees.
